## HAND HYGIENE FOR THE FOOD INDUSTRY

NEW  
**OXYBAC™**  
antibacterial foam hand wash

powered by  
**ACCELERATED**  
HYDROGEN PEROXIDE

### NEW! OXYBAC SKIN CARE

#### The Safest and Most Effective Antibacterial Hand Wash

A unique new rich-cream FOAM antibacterial hand wash combining Deb Foam Technology™ with Accelerated Hydrogen Peroxide® biocidal agent to provide significant benefits over all other antibacterial hand wash products.

- **Broad spectrum biocidal activity** – kills an exceptionally broad spectrum of bacteria, fungi (yeasts & moulds) and many viruses that can be spread by hands and cause common illness
- **Safer for the environment** – unlike all other biocidal actives, hydrogen peroxide leaves no residual environmental contamination after use as it simply breaks down into oxygen and water
- **Safer for the user** – non-toxic and non-irritating to skin; does not induce antibacterial resistance
- **High performance cleaning** – the rich, surfactant foam formula delivers excellent physical cleaning to remove both visible soilings and invisible micro-organisms
- **Safe for food** – perfume-free and dye-free, tested to prove non-tainting to food

#### Biocote® The Power of Silver

All Deb dispensers in this range are Biocote® protected. Biocote® is a silver-based antimicrobial agent that is incorporated into the dispenser components at the time of manufacture and inhibits the growth of a broad spectrum of bacteria and moulds. Biocote® will not wear out or rub off over time, making it effective for the lifetime of the dispenser.

## CLEANSE

**OXYBAC**

**NEW!**

#### OXYBAC PERFUME-FREE ANTIBACTERIAL FOAM HAND WASH

Unique rich-cream FOAM antibacterial hand wash powered by Accelerated Hydrogen Peroxide® for highly effective cleansing and germ killing power. The perfume-free and dye-free formula is proven to be non-tainting and passes EN1499 ensuring it is ideal for use in food handling environments to cleanse the skin and kill bacteria, yeasts, moulds and many viruses.
