

# Skips

Designed for long, hard service, these skips offer a durable low maintenance solution to managing waste. The one-way skips tilt vertically while the three-way skips lift from the rear or either side so that they can be easily emptied. Their robust steel construction ensures they can manage the heaviest of loads. The self-tipping forklift skips are available in seven standard colours: white, black, red, green, yellow, blue and orange.

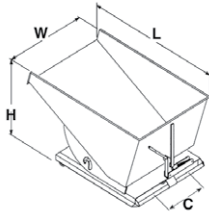

**IMPORTANT:** The total weight of the skip plus load should not exceed 50% of fork truck rating.

- Tips forwards or to either side
- Self-latching return mechanism
- Robust fork guides
- Lighter models supplied with heavy-duty castors

## Heavy Duty Skip

- Self latching return mechanism
- With castors ATS-3W & 1W 025 & 050
- Without castors ATS-1W-100 & larger

## Eco Skip

- Designed for lighter waste materials
- Castors are an optional extra

## Mini Skip

- A compact skip for use in confined areas
- Castors as standard
