

COMPRESSED AIR DRYERS

key features

The SIP range of compressed air dryers are ideal for eliminating moisture from the air supply and can extend the life of air tools. All models are equipped with a high efficiency heat exchanger including an integrated condensate separator. Plus a programmable control board adjusts the fan speed according to the load.

- Dry air perfect for spray painting
- Can prolong the life of air tools

- 05303 **PS9** Compressed Air Dryer
- 05306 **PS11** Compressed Air Dryer
- 05307 **PS17** Compressed Air Dryer
- 05309 **PS24** Compressed Air Dryer

trade level ★★

- 230v (13amp) supply
- 16 bar (232 psi) maximum pressure
- Compatible with all SIP pneumatic compressors*

* may also be compatible with non-SIP units - please check your user manual
