### **METALWORKING - CIRCULAR SAWS**

#### 01554 10" Industrial Circular Saw

The new 10" Industrial Circular Saw from SIP is designed for easy cutting of ferrous metals and runs from a 230v (13 amp supply) This machine has a solid cast-iron base and head for added stability and reduces vibration. The saw also features a single vice with cut-of clamp to eliminate break off burrs, a totally enclosed cutting blade for maximum safety and an integrated coolant system delivers lubrication and cooling to extend blade life. In-built coolant filters removes debris and swarf from the coolant to reduce blockages. This saw is ideal for use in a busy workshop environment.

- Designed for cutting ferrous metals
- · Cast iron machine head and base
- Single vice with cut-off clamp
- Built in coolant system with external filter
- Blade included
- · Complete with stand

Single vice with cut-off clamp

## METALWORKING -

# CIRCULAR SAWS

industrial level  $\star \star \star \star$ 

### 01565 12" Industrial Circular Saw

The top of the range brand new 3 phase 12" Industrial Circular Saw from SIP has a powerful dual speed motor which gives ultimate performance, delivering smooth and reliable cuts on ferrous metals. It's also equipped with a solid cast-iron base and head for maximum stability and reduced vibration, a totally enclosed cutting blade for maximum safety plus a twin vice clamp for work piece stability and to eliminate break off burrs. An integrated coolant system delivers lubrication and cooling to extend blade life. In-built coolant filters removes debris and swarf from the coolant to reduce blockages.

Perfect for use in a busy workshop environment.

- Twin speed (18rpm / 36rpm)
- Designed for cutting ferrous metals
- Cast iron machine head and base
- Twin vice (centralises the work piece)
- Built in coolant system for cut lubrication
- Blade included
- Complete with stand

Twin vice - centralises the workpiece

ITEM NO.	01565
Supply	400v - 3ph
Motor	
	1.3kW (1.7hp)
Blade Size	315mm
