

ELECTRIC HEATERS

09160 Fireball Turbofan 3000

A highly yet portable electric fan heater. Perfect for small garages, workshops, offices and domestic use from a 13amp plug.

- 3000w (10,200BTU/hr) heat output
- Thermostatically controlled
- Highly portable - weighs just 4.8kg
- Turbofan design
- Heavy duty painted finish
- Cooling fan facility

Fireball Electric Heaters

Tough infrared and ceramic emitters - heat objects and not the surrounding atmosphere.

- Clean source of heating
- No Fan - minimal dust disturbance making these ideal for workshops
- Lightweight and portable

09156 Fireball 1850 Infrared Diesel/Paraffin

industrial level ★★★★★

- 230v (13amp) supply
- 155,737 BTU (45.5Kw) heat output
- Heavy duty rugged construction
- 65 litre shockproof polythene fuel tank - reduces fuel contamination
- Infrared - heats objects rather than surrounding air
- Adjustable head for directing heat
- Timed post ventilation to cool the combustion chamber
- External structure in double sheet steel to ensure thermal and acoustic insulation

Integrated heat deflector, protects flooring
