

## 01543 Planer 6" / 152mm

trade level ★★

This machine has a powerful 1100w motor and a cutter block speed of 10,000rpm for a superb finish. The 6" planer is a robust yet compact machine equally at home in a woodwork shop or with the DIY enthusiast working in limited space. The planer has built in dust extraction and collection, therefore there is no need to connect an external dust extractor.

- Rigid extruded fence with adjustable stops - can be tilted to 90° or 45°
- Adjustable cutting depth - maximum cutting depth of 2mm
- **Built-in extraction fan to clear shavings - complete with collection bag**

Fully adjustable fence

ITEM NO.	01543
Motor	1.1kW (1.5hp)
Supply	230v (13amp)
Max. Working Width	152mm
Max. Planing Depth	2mm
Cutter Block Knives	2
Cutter Block Speed	10,000rpm
Overall Table Length	660mm
Planer Table Height	160mm
Net Weight	15kg
Packaged Dimensions (LxWxH)	704 x 370 x 245mm
Barcode Number	5012713015436

## 01552 Planer/Thicknesser 8" x 8" / 204 x 210mm

trade level ★★

The SIP 8" x 8" Planer/Thicknesser has cast aluminium, machine surfaced table tops for accurate planing of long lengths of timber. The thicknesser has power feed rollers which provide a consistently smooth finish. The machine has built in dust extraction and collection, therefore no requirement to attach an external dust extractor

- Powerful motor - 1500w (2hp)
- Maximum capacity 204 x 210mm
- Built-in safety interlocks

- Adjustable 90° to 45° surface planing fence for square and chamfered planing (extruded alloy construction)
- **Built in dust extraction and collection**

Easily converted to thicknesser mode

**BUILT-IN  
DUST  
EXTRACTION**

# PLANER / THICKNESSERS

## 01550 Planer/Thicknesser 10" x 6" / 254 x 160mm

trade level ★★

This is the ideal machine for working on rough-sawn or twisted timber. It offers rapid conversion from planer to thicknesser to minimise downtime and has the added safety facility of a mode interlock switch, to prevent incorrect operation of planer mode when set up in thicknesser mode and vice versa. This machine has a large precision-machined work table and a fully adjustable planing fence. Built in dust extraction and collection therefore no need to connect an external dust extractor.

- Surface table over 1 metre in length
- Calibrated thickness scale
- Anti kick-back lock for added safety against recoiling wood
- Powered feed rollers
- Thicknesser table supported by four interlinked threaded rods giving rigid support in operation
- **Built in dust extraction and collection**
- Supplied with cabinet stand

**BUILT-IN  
DUST  
EXTRACTION**
