## Topstore - TC Semi-Open Fronted Containers

A simple and effective small parts storage system for a wide range of materials. Space saving, manufactured from polypropylene, can be stacked or for increased flexibility, used with Topstore Louvred Panels, Cabinets and Shelving.

Containers can be manufactured in own brand and colours for high volume users.

### Features:

- Strong, heavy duty with reinforced base, sides and stacking rim
- Durable, resistant to most industrial solvents.
- Material is capable of withstanding a temperature range from  $-15^{\circ}\text{C}$  to  $+50^{\circ}\text{C}$ , however this may not apply when under load or stress dependent on use or application.
- Hygienic, clean, smooth inside faces guard against build up of grease etc
- Index card slot for instant product identification (labels not supplied as standard please order separately)
- Available in 7 sizes and 6 colours as standard

### Black Conductive Storage Containers

Are manufactured using antistatic, carbon, conductive particles/fibres which produce a low charging (antistatic) container which is less likely to damage static sensitive items.

This makes them ideal for use as part of a complete ESD control programme, as defined by BS IEC 61340-5-1:2007

### Technical Details

### Container Stacking Loads:

Please note that when stacking containers, the entire stack load is dispersed onto the base container therefore neither the individual load or the total load of the stacked containers (up to the max. stack height) should exceed the max. stack load.

Eg. The diagram below shows TC5 containers stacked to their max. of 4 high. As the max. stack load for TC5 is 45Kg, if containers 1, 2 & 3 are equally loaded they can each carry 15Kg. If they were stacked 3 high and equally loaded each container could carry 22.5Kg, or 2 high 45Kg.

For all bin capacities see the chart opposite

## Topstore - NXT-GEN Semi-Open Fronted Stack & Nest Containers

The next generation storage containers are designed to help you make the most of the space in your business.

Manufactured from polypropylene these containers combine the quality that you have come to expect with its revolutionary design enabling the bin to stack and nest, with the facility to be mounted onto louvred panels and to hold dividers to make the best possible use of the space available. NXT-GEN containers are also designed to be used with our cabinets and shelving systems to make this one of the most flexible bins available.

Available in 7 sizes and 3 colours as standard. Containers can be manufactured in own brand and colours for high volume users.

### Features:

- Dividers available to run front to back or left to right dependent on bin size
- When not in use, the bins will nest reducing the amount of storage space required
- Resistant to most chemicals, including oil and acids.
- Material is capable of withstanding a temperature range from -15°C to +50°C, however this may not apply when under load or stress dependent on use or application.
- Increased clear access facilities for easy selection
- Ergonomic design generates greater durability and strength
- Lifting handle on larger bins
- Index card slot for instant product identification (labels not supplied as standard please order separately)

# Topstore - Wall Mounted Louvred Panels

Featuring the unique double indented louvre for extra strength, this system offers the ideal solution for wall mounting and many other applications for NXT-GEN and Topstore TC containers and accessories.

6 Imperial and 4 metric sizes available. Precision formed and finished epoxy powder coated in two colours. Other colours available.

TC Containers are suitable for both the metric blue and imperial grey louvred panels, however the NXT-GEN Containers are better suited to the metric blue louvred panels.

Excludes wall fixings

Unique double indent louvre for extra strength

### Louvre Value Configuration

1. To calculate approximately the amount of NXT-GEN or TC Containers or accessories that can be accommodated on a Topstore Louvred Panel, or part thereof, take the LV (Louvre Value) of the container or accessory and divide it in to the NL (Number of Louvres) per panel. To determine the number/size of Louvred Panels required to locate specific quantities of containers, simply reverse the above process.
2. To calculate the exact configuration, see diagram below.

IMPERIAL LOUVRED PANELS			
Panel Ref:	Total (NL) No. of Louvres	No. of Louvres in:	
		Width	Height

## Topstore - Wall Mounted Louvred Panel Kits

A range of modular pre-kitted TP10 louvred panels (H) 641 x (W) 457 mm in grey, complete with Topstore Containers ranging from TC2's to TC6's, in blue or red. For all other bin sizes and colours, see pages 4 and 5 and louvre panels see pages 8 and 9. (Other standard colours are available upon request).

These modular panel kits shown on pages 10-13 are designed to simplify the full utilisation of available wall space.

- All kits exclude wall fixings
- All containers come complete with I.D labels.

## Topstore - Louvred Panel Spacemasters

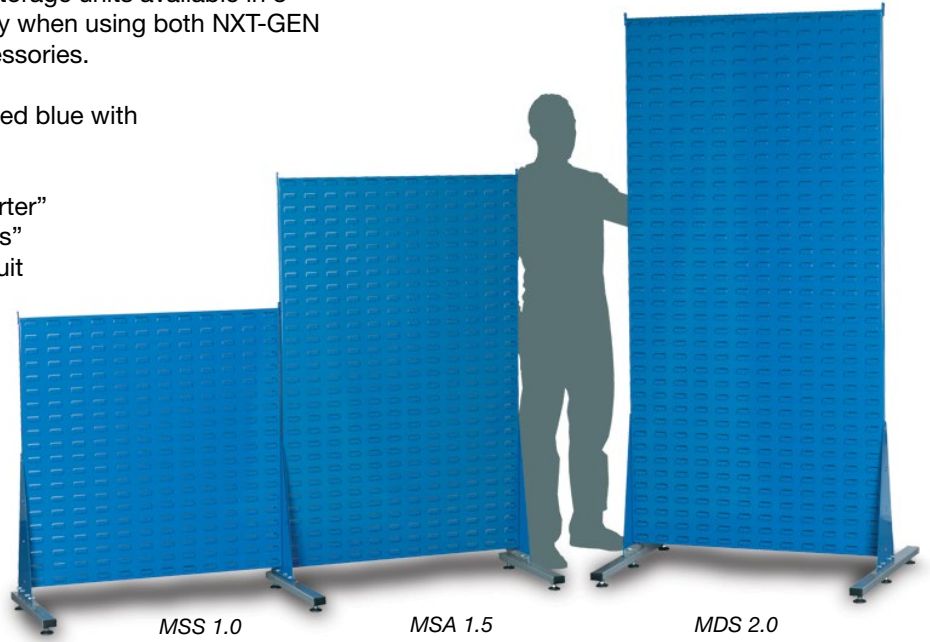

Single or double sided freestanding storage units available in 3 heights for increased storage capacity when using both NXT-GEN and TC Topstore containers and accessories.

Units are finished epoxy powder coated blue with silver/grey feet.

For larger applications order one "starter" and the appropriate number of "addas" to make this a complete solution to suit individual requirements.

Heavy duty adjusters permit levelling on uneven surfaces.

Other colours available.

## Topstore - Louvred Panel Trolleys

When you require a solution for component picking in aisles or requiring movement, we offer a range of trolleys compatible with both NXT-GEN and Topstore TC Containers and Accessories.

Units are finished epoxy powder coated blue with silver/grey base.

The trolleys are supplied as standard with 100mm diameter wheels/casters (2 fixed/2 swivel) non-marking rubber tyred and enable a safe load to be manoeuvred with ease. Other colours available.

- All containers come complete with I.D labels

## Topstore - Shelf Bins

Available in 17 sizes, these tough, blue polypropylene bins offer a practical alternative solution to cardboard or steel (other colours are available - please contact our sales department for details).

Shelf bins are impervious to most oils, greases and chemicals and make the best use of available shelf space, particularly when used with shelving systems.

The bin design includes a semi-open front, a facility for transparent dividers and a bin stop. For identification, durable plastic label holders (complete with labels) are available.

When not in use the bins will nest, reducing the amount of storage space required.

Bin Stop

Type	L x W x H (mm)	Max Dividers per Bin	Pack Size	Order Ref	Price (Per Pack)

## Topstore - Clearbox

The ideal dust-free storage and display system for the warehouse, workshop, retail and trade. Each unit contains a number of removable transparent inner compartments suitable for a wide range of items with a beige outer body.

To provide the ultimate in flexibility of application, Clearbox can be fixed directly to the wall, fitted to freestanding metal racks (single or double sided) or which can be converted to provide a mobile unit.

Whatever the format, Clearbox provides the answer.

- Flexible – suitable for a variety of uses and applications
- Non-toxic – suitable for use with food stuffs
- Strong – outer body manufactured from high-impact polystyrene plastic and inner compartments from ABS plastic
- Order picking – tilting transparent compartments allow easy retrieval of items with maximum display potential
- A retaining bar is available (for all Clearbox sizes) to secure individual compartments in place and prevent accidental displacement when in transit. Finished zinc plated.

*All units have a common width of 600mm and are available in 6 sizes, each providing a different number of compartments suitable for a range of small components.*

## Topdrawer

A selection of free-standing units and trolley ideal for most environments. The range provides medium to high volume storage for small parts and is ideal for both office and factory use. The cabinets can also be bench or worktop mounted, or if required can be wall fitted (wall fixings are not included). A 48 drawer cabinet complete with doors is also available for secure storage.

A unique slide design ensures the drawers run smoothly. With an anti-drop structure the drawers are safely secured when in use. All cabinets are manufactured from pre-galvanised steel and powder coated in grey.

052005

052003

The drawers are manufactured from high impact ABS/Styrene and include inner dividers and I.D labels. They are fitted with clear front windows for easier visibility of stored items. Drawers are also oil corrosion resistant and have high impact strength. All of the drawers can be completely removed.

Additional dividers and index labels can be ordered separately.

## Compartment Boxes

The compartment boxes are manufactured from cold rolled steel, and supplied with high impact styrene compartments. Each compartment has rounded scoop edges making it easy to remove small parts. Box lids are designed to stay open for easy access, and are fitted with a handle and pull-down catch.

- High impact styrene insert with various compartments
- Adjustable Compartment Box, comes complete with 4 fixed vertical compartments and 9 adjustable dividers.
- Full piano hinge on cover provides rigidity
- Positive pull-down catch keeps cover tightly closed to ensure all parts are secure in each section
- Handle allows for easy transport
- Durable grey powder coat finish
