# Mezzanine Floors

Our mezzanine floors are manufactured to the highest quality and performance that comply with the latest British and European design standards.

Offering a fully comprehensive service from initial design and planning through to installation and commissioning, our mezzanine floors can help you maximise your building's capacity by taking advantage of unused vertical space.

Mezzanine floors can be a low cost option and are easily installed in almost every environment from a warehouse to a busy office.

## Mezzanine Handrail Netting

This simple and easy to install safety netting prevents items from being accidentally kicked or dropped protecting personnel on the floor below. Available in several colours of fire retardant net and using the wire fixing system, mezzanine guard rail nets are easy to install and incredibly easy to maintain. The net is constructed from 3mm cord and a 45mm mesh size. Comes complete with wires and fixings.

- Prevents items falling from a mezzanine floor
- Retains the use of the handrail
- Available in a choice of six colours
- For new installations or can be retrofitted

The price below is a guide.  
Prices for specific projects are available on request

|                                    |        |
|------------------------------------|--------|
| BUDGET PRICE<br>(per square metre) | £16.00 |
|------------------------------------|--------|

## Pallet Nets

This is ideal for any operation that requires secure transportation of products via a pallet

- Reuseable, no need for pallet wrap
- Reduces packaging costs
- Available in euro and standard pallet sizes
- Bungee cord base rope
- Environmentally friendly

The price below is guide. Specific prices for projects are available on request

|                               |          |        |
|-------------------------------|----------|--------|
| BUDGET PRICE (per pallet net) | Euro     | £46.95 |
|                               | Standard | £49.95 |

# Adjustable Pallet Racking

These pallet racking systems are designed from two basic components, frames and beams. In addition a range of accessories enable the system to meet a wide range of needs.

- Frames are of bolted construction and are supplied fully assembled.
- Beams are available in a range of lengths to suit both standard pallet sizes and bespoke pallets. Additionally the beams come in a range of profiles to meet the load requirements of almost any application.
- Beam safety locking clips are supplied with all beams in accordance with health and safety requirements.
- Frames are manufactured from galvatite steel or epoxy powder coated blue and beams are epoxy powder coated orange.
- Pallet racking accessories are available such as Pallet Support Bars, Fork Entry Bars, Rough Sawn Open and Closed Timber Decking, Upright Protection Guards, Rack End Barriers and Galvanised Steel Shelf Panels (please enquire).
- Manufactured in accordance with FEM standards.

Standard Duty Frames Ref:8808 (80mm x 80mm x 1.5mm) (Blue or Galvatite)

| Height | Depth   |         |
|--------|---------|---------|
|        | 900mm   | 1100mm  |
| 3000mm | £95.93  | £100.26 |
| 3500mm | £105.26 | £109.47 |
| 4000mm | £118.91 | £123.69 |
| 4500mm | £132.47 | £137.81 |
| 5000mm | £146.11 | £152.00 |
| 5500mm | £160.14 | £166.72 |
| 6000mm | £173.56 | £180.93 |

Heavy Duty Frames Ref:8813 (80mm x 80mm x 2.0mm) (Blue or Galvatite)

| Height | Depth   |         |
|--------|---------|---------|
|        | 900mm   | 1100mm  |
| 5000mm | £200.83 | £206.74 |
| 6000mm | £239.45 | £246.60 |
| 7000mm | £273.35 | £280.95 |

Frame Loading Capacities

| Distance From 1st Level to Floor | 8808 Frames (Kg) | 8813 Frames (Kg) | 8G15 Frames (Kg) |

| Tubular rack end barriers 2500mm          | £68.75       |

## Rack Netting

Rack Netting is a lightweight and surprisingly strong product that is perfect for a variety of safety applications around any industrial facility. Made from high density polypropylene the net is light weight and incredibly strong. A wide range of cord thicknesses and mesh sizes are available so that we can match your requirements with a specific net. The rack netting is also easy to install and does not suffer from corrosion.

### Back of Rack & Safety Netting

Back of rack safety netting is an excellent way of preventing injury and product damage at the back of single runs of pallet racking. Available in a small range of colours and strengths our unique bracket and fixing installation system prevents rack twisting and makes the net very quick to install.

- Prevents accidents and stock damage
- Withstands a full pallet impact at 1000kg
- Available in a choice of six colours
- Faster installation than traditional methods
- For new installations or can be retrofitted

|  |        |

| BUDGET PRICE<br>(per square metre)   | £24.00 |

# Anti-Collapse Mesh

The Anti-Collapse system prevents any risk of spillage from pallets in warehouse storage, effectively protecting walkways and pallet rack aisles from unwanted accidents. This is a system that has been created for safe handling and storage of products in a warehouse / logistics environment.

A wide variety of panel sizes, stand-offs (from 50mm – 300mm), bracket types, and fixing kits ensure a safe and secure solution to accompany most pallet racking systems.

Our Anti-Collapse system is available in either hot dip galvanised or a variety of powder coated finishes.

Please contact us for a quote.

Ultima Bracket

Economy Bracket

# Titan Partitions

Titan is a high-quality, two-line double skinned partitioning system ideal for clean room applications. Its versatility allows it to be used for a variety of other applications including laboratories, hospitals, surgeries, and food preparation, but particularly those applications where appearance is important.

Titan can be multi-tiered and profiled for warehouse and office divisions to create an environment more appropriate for specialised areas; Titan can also be manufactured in a form that can more readily withstand moist atmospheres.

Titan partitioning has a two-line junction to keep dust traps to a minimum and its powder-coated finish is an ideal surface for clean environments. It is completely demountable, enabling panels to be removed without having to dismantle the entire structure.

All hardware accessories come in stainless steel as standard due to its exceptional "clean" properties, and flush glazing eliminates ledges and further improves aesthetics.

All joints can be silicone sealed to stop air loss and reduce particle traps. Additional aesthetic features such as integrated blinds with movable magnetic controls can be provided upon request, and options for extra sound reduction are available. There are also options for several different floor details including coved skirting, bull nosed skirting, and stainless steel kick plates.

Used in conjunction with the correct air handling and HVAC systems, a Class-5 clean room can be achieved (ISO 14611-1).

Ceilings are formed from a single-line junction panel with an optional facility that enables the ceiling to carry a load of one person - ideal for maintenance purposes.

Please contact us for a quote.

Integrated Blind with Control  
(Removable Magnetic Control available upon request)

Flush Glazing

Doors with Stainless Steel Fittings

## Elan Partitions

Elan is a high quality double-skin steel partitioning system for offices and warehouse factory applications where an attractive appearance is important. Panels are available in Full Steel and Steel/Glass combinations with double or single glazing.

Fully demountable, the panels can be supplied as fully fire-rated or non-fire rated. Additional noise reduction capabilities are available.

The Elan system can be supplied with a large range of ceilings (suspended or walk-on) and accessories. A wide variety of hinged and sliding doors are also available.

Elan and Sigma panels come in a wide range of sizes and heights allowing for multi-tiered configuration.

Both systems come in a variety of standard finishes (White RAL 9010. Sandstone BS08817. Grey BSDA005. Grey RAL 7037. Blue RAL 5010) and further non-standard, corporate and special finishes are available upon request.

Please contact us for a full quotation.

## Sigma Partitions

Sigma is a single-skin partitioning system suitable for factory, warehouse and storage requirements.

Fully demountable, it is ideal for enclosing work areas where appearance is important but without the cost of a double-skinned system. Sigma can also be used for machine guarding and for enclosing production lines, for perimeter guarding to automated machinery, robots, conveyors and with other automated processes. When used in a multi-tiered configuration it is effective for factory or warehouse division, providing additional security, dust-proofing and environmental control.

Sigma can be cut to accommodate existing structures providing an aesthetic finish. A variety of accessories such as drop-down hatches and framed openings can be created.

Sigma panels are available in full steel/glass, steel/mesh and all mesh combinations to suit your requirements, mesh can be provided in several styles and sizes. Furthermore a full range of hinged and sliding door options are available.

# Caelum Mesh Wall System

Caelum is a flexible system that can be used for a variety of purposes. A wide range of panel sizes with varying frame and mesh configurations ensure the perfect solution.

Caelum modular mesh panels can be used to build enclosures, boxes, storage units, and provide protection in automated warehouses, and are particularly useful in bonded stores, low-level and semi-secure storage areas and as small cage enclosures where high value retail goods (i.e. Smart phones, mobile telephones, tablets and laptops, computers, power tools, liquor, tobacco etc). Virtually any item that may require restricted accessibility can be stored.

The Caelum system is available in multi-tiered elevations, enabling the end user the ability to partition off large secure storage areas within warehouse environments, particularly useful for isolating and storing dangerous goods such as aerosols or combustible materials.

The Caelum Mesh Wall system is available in either hot dip galvanised, or a variety of powder coat finishes.

# GUARDA Chain Posts

GUARDA Chain Posts are the ideal low cost solution for cordoning off areas both internally and temporarily outdoors.

- Quickly and easily deployed.
- Corrosion proof plastic construction.
- Low centre of gravity for stability.
- Choice of three base styles.
- Four integrated chain eyes in cap.
- Highly visible post colours - Red/White or Black/Yellow

**Applications:**

Warehouse, production areas, shipping departments, administration depts. etc

**Specifications:**

Post dia. 40mm

Post height: 870mm

Bases:

Rubber: 265 x 265mm sq.

Weight 1.8kg

Plastic (hollow): 300mm dia.

Weight: Variable

Plastic/concrete\*: 300mm SL

Weight: 2.9kg

\*Suitable for outdoor use.

GUARDA Chain Post set.

As detailed above but available in handy sets of:

6 chain posts and bases.

10m of M-POLY Chain.

10 Connecting links.

10 'S' hooks.

# TRAFFIC-LINE Steel Hoop Guards

Protect and segregate pedestrians, machinery and other zones from works vehicles, falls etc.

- Versatile and effective protection.
- Highly visible finish.
- Additional reinforcing crossbar.
- Easily installed with bolts (available at extra cost).

Permanent & removable versions now available for fixing to vertical surfaces.

**Applications:** Protection of pedestrian areas (entrances, exits etc.), machinery, dangerous zones, elevation changes, loading docks, hazardous areas, garage pits etc.

**Specifications:**

Lengths: 1,000, 1,500 and 2,000mm

Height: 1,000mm Surface mount –  
1,300mm Wall mounted

Diameter: 48mm Ø x 2mm Wall

Fixing plates: Surface mount -

70 x 60 x 10mm

(2 x mounting plates with pre-drilled fixing holes)

Wall fixing (permanent)

(2 x mounting plates with pre-drilled fixing holes)

Wall fixing (Removable)

(Socket with 2 x mounting plates with pre-drilled fixing holes)

**Finish:**

Interior: Powder coated yellow with black bands.

Exterior: Hot Dip Galvanised. Powder coated yellow with black bands.

Wall Mounted

# TRAFFIC-LINE Protection Guards

Protect property and machinery with TRAFFIC-LINE Protection Guards.

- Superior build quality and strength.
- Highly visible colour scheme.
- Easily installed with floor fixings (available at extra cost)
- Corner protection style also available with 600mmL sides.

Applications: Protect stock, traffic routes and work areas, separates different traffic routes (e.g. stacker lanes in warehouses and pedestrian traffic), machinery, supports, columns, shelving, loading ramps, equipment etc.

**Specification:**

Widths: 375mm, 750mm and 1,000mm.  
 Heights: 350mm, 600mm and 1,200mm.  
 Diameter: 76mm with 3mm wall thickness.  
 Fixing plates: 160 x 140 x 10mm (drilled 4 fixing holes)

**Finishes:**

Interior: Powder coated yellow with black bands.  
 Exterior: Hot Dip Galvanised. Powder coated yellow with black bands.

Sub-surface versions, special sizes and colours can be manufactured to order.

# TRAFFIC-LINE FLEX Protection Guards

## TRAFFIC-LINE FLEX Protection Guards

A unique development of our standard Protection Guards that features the strength and protective attributes of steel combined with the ability to 'give' up to 10 degrees from the vertical, reducing the incidence of damage and the need for repairs. This is achieved by equipping the guard with flexible shock absorbing polyurethane pads. These pads are UV, weather and temperature resistant, making them suitable for internal and external use.

- Highly visible yellow/black colour scheme.
- Unique flexing action.
- Easily installed.
- Interior & Exterior models.

### Applications:

Traffic routes and work areas, segregation of traffic routes, machinery, supports, columns, loading ramps, equipment etc.

### Specifications:

Widths: 375, 750, 1,000 and 2,000mm

Heights (max. inclination): 390 (55), 640 (95), 1240 (190)mm

Diameter: 76mm

Wall thickness: 3mm

### Finishes:

Interior: Powder coated yellow with black bands

Exterior: Hot Dip Galvanised, Powder coated yellow with black bands

Upgradable: Existing TRAFFIC-LINE Protection Guard installations can be up-graded, new chemi-anchor fixings will be required.

Options: Can be supplied in a sub-surface fixing version – POA.

## TRAFFIC-LINE FLEX Heavy Duty Bollards

The “smart” protection bollard – yields when hit helping to reduce damage to both the bollard and the vehicle. Combination of internal spring and an elastic polyurethane buffer absorbs the impact force (progressive force absorption).

- Heavy duty protection.
- “Gives” up to 25°.
- Returns to original position.
- Superior build quality and strength.
- High grade steel construction.

**Applications:** High traffic areas, loading bays, site entrances, etc.

**Specification:**

Material: Steel/Polyurethane construction.

Height: 655mm

Diameter: 159mm

Wall thickness: 4.5mm

Fixing plate: 200 x 200 x 10mmD (pre-drilled 4 holes)

Finish:

Interior: Powder coated Yellow

Exterior: Hot Dip Galvanised. Powder coated Yellow

## TRAFFIC-LINE Protection Guard with Under-Run Protection

**TRAFFIC-LINE Protection Guard with Under-Run Protection** Same design as **TRAFFIC-LINE**. Protection Guards but with steel infill plate.

- Superior build quality and strength.
- Strong, effective protection.
- Protect vulnerable equipment.
- Highly visible colour scheme.
- Easily installed with 8 anchor bolts (available at extra cost).

Diameter: 76mm x 3mm wall thickness

Fixing plates: 160 x 140 x 10mm (drilled 4 fixing holes)

**Under-run plate:**

Height: 150mm and 400mm

Gauge: 4mm

Finish: Powder coated yellow with black bands.

Sub-surface versions, special sizes and colours can be manufactured to order. Please ask for details.

**Applications:**

Use in warehouses, distribution depots, storage areas etc.

**Specification:**

Widths: 750mm and 1,000mm

Heights: 350mm and 600mm

# TRAFFIC-LINE Collision Protection Guard

Low cost protection for plant and machinery from forklift trucks, roller containers, trolleys, pallet trucks etc.

- Easily and quickly installed.
- Low profile design enables easy pedestrian access to protected areas.
- Protect machinery, plant etc
- Interior use only

Applications: Protect shelving, cabinets, wall-mounted equipment (instruments, switch cabinets, first aid equipment etc.).

**Specification:**

Lengths: 400, 800 and 1,200mm.  
 Height (O/all): 86mm  
 Diameter: 76mm with 3mm wall thickness.  
 Base plates: 10mm thick. Drilled 2 fixing holes.  
 Finish: Powder coated yellow with black bands.

Special lengths, colours, and external versions can be manufactured to order. Please ask for details.

# TRAFFIC-LINE Hi-Vis Belt Posts

A supremely flexible system that provides either permanent or temporary demarcation of pedestrian areas from vehicular traffic routes.

- Quickly & easily deployed.
- High visibility colour scheme.
- Moulded bases with reflectors.
- Temporary or permanent installation.
- Base can be weighted with water or sand.
- Powder coated aluminium posts.
- Self tensioning mechanism.
- Damped belt mechanism for controlled retraction.
- Secure four point fixing for permanent installations.  
(Fixing bolts available at extra cost.)

**Specification:**

- Overall height: 985mm
- Post dia.: 60mm
- Post colours: Yellow, Red
  
- Weight: 13kg (filled) 2.4kg (empty)
- Base dia.: 330mm
- Base colours: Yellow/Black, Red/White
  
- Belt length: 3000mm or 4000mm
- Belt colours: Black/Yellow diagonal stripes.
- Red/White diagonal stripes.
- Or single colours available.
  
- **Applications:**
- Barriers,
- Guidance,
- Parking facilities,
- Industrial premises,
- Warehouses,
- Outdoor facilities, etc.

# DETECTIVE-X Acrylic Convex Mirrors

The **DETECTIVE-X Convex Mirror** is a lightweight interior observation and control mirror ideally suited for areas where people circulate, affording observation where medium to large fields of vision are required.

- Outstanding image quality.
- Helps to prevent accidents and theft.
- Ultra lightweight acrylic material.
- Eliminates risks associated with glass mirrors.
- Mirror face protected under a tough, clear acrylic layer.
- Interior use only.
- Extremely shock-resistant construction.
- 5 year guarantee against manufacturing faults.

**Specification:**

Diameters: 300, 400, 500 600, 700 and 800mm.  
 Material: Metalised acrylic, under surface coated.  
 Bracket: 25cm 'J' bracket.

**Accessories:**

55cm 'J' bracket.  
 Post fixing clamps.

**Applications:** The DETECTIVE-X is used in self-service stores, retail outlets, public buildings, warehouses, manufacturing areas etc.

# Kenilworth

The Kenilworth is an attractive, curved cycle shelter, popular with schools and colleges and offers floor to roof level protection from the prevailing elements.

This is a tough, robust structure with vandal resistant features.

- Zinc coated with powder coated finish in any RAL colour - also available fully galvanised.
- Leg frame can either be bolted to the floor or grouted into the ground. Ground fixing option supplied as standard.
- Designed for use with our Sheffield and Harrogate loops and racks. Please call our sales team for details.
- Initial shelters can be linked side by side to form longer runs.
- The Kenilworth is also available as a cycle compound, with or without security gates and has a no crawl under perimeter for added security.
- Parabolts for surface mounting included. Must be bolted to 250mm thick concrete pad for stability.

## Kenilworth Cycle Shelter

| H x D (mm)  | Width (mm) | Order Ref  |               | Price (Each) |
|-------------|------------|------------|---------------|--------------|
|             |            | Galvanized | Powder Coated |              |
| 2230 x 2150 | 2000       | SCKN2020OV | SCKN2020OJ    | £1837.50     |
| 2230 x 2150 | 3000       | SCKN3020OV | SCKN3020OJ    | £2012.50     |
| 2230 x 2150 | 4000       | SCKN4020OV | SCKN4020OJ    | £2187.50     |
| 2230 x 2150 | 5000       | SCKN5020OV | SCKN5020OJ    | £2362.50     |

If sited within 5 miles of the coast, we strongly recommend that the shelters and racks are galvanised.

Our most popular colours are:

RAL 9006  
Silver

RAL 9005  
Jet Black

RAL 9024  
Pine Green

RAL 5017  
Traffic Blue

## Premier Cycle Shelters

The Premier Cycle Shelter has a more curved, contemporary design intended to blend into both traditional and modern environments, thus providing tidy and secure storage of cycles on any site.

### Framework Colour Options

- Choice of clear Perspex or Powder coated steel side and back panels.
- Adjustable feet for on-site positioning.
- Parabolts for surface mounting included. Must be bolted to 250mm thick concrete pad for stability.
- Site survey and installation service available.
- Comes complete with integrated twin-level bike rack for eight bikes - Hoop Racks are also available on request.

\*Insert (L) for Light Grey, (G) for Pine Green or (B) for Traffic Blue. Other colours available at extra cost, speak to sales for details.

If sited within 5 miles of the coast, we strongly recommend that the shelters and racks are galvanized.

### Premier Shelter

| H x W x D (mm)     | Side Panels   | Order Ref    | Price (Each) |

| 2320 x 3000 x 2100 | Perforated    | SC223021P*EA | £2260.16     |
| 2320 x 3000 x 2100 | Clear Perspex | SC223021X*EA | £2465.12     |

# PROline-tape Floor Marking System

## Self-adhesive floor marking tape

PROline-tape is an extremely tough floor marking tape for quick and effective marking of internal surfaces. Aisles, traffic ways and other demarcation areas can be identified precisely, cleanly and economically.

- Available in 50mm and 75mm widths x 33m long.
- Six bold safety colours.
- Three diagonally striped hazard warning colours.
- Striped tapes are laminated to protect print surface.
- Leaves no residue when removed from most surfaces.
- Ideal for short and medium term marking.

### Specification:

Widths: 50 and 75mm  
 Thickness: Plain: 0.15mm Laminated: 0.18mm  
 Length: 33m  
 Core: 75mm ID  
 Colours: 6 plain  
 3 Diagonal striped

PROline-tape is easily and quickly applied with the TAPEliner applicator, and is particularly useful where extensive marking is required.

Also available is our PROline Marker Kit which contains all of the elements required to get started. When ordering please specify colour(s) and width of tape required.

The TAPEliner Applicator Kit consists of:

- 1 x TAPEliner Applicator
  - 2 x Rolls of PROline tape
  - 1 x Trimming knife
  - 1 x Marker line and chalk
- Individual rolls are available.

| Indication            | Colour                |

# PROline-paint Marking System

PROline-paint is developed for rapid and effortless marking of indoor and outdoor areas.

- Long lasting, durable and cost-effective.
- Easy to use – shake can, insert into applicator and apply.
- Markings are highly visible and are abrasion and chemical resistant.
- Adheres to most surfaces – concrete, asphalt, tarmac, metal, tiles etc.
- Fast drying normally within minutes.
- Economical – one 750ml can will produce 50mm wide line 50-90 meters long (Dependant on surface).
- Environmentally friendly - conforms to latest EU regulations.

**Specification:**

Paint: Synthetic resin.  
 Colours: 8 safety colours.  
 Container: 750ml Aerosol can  
 Propellant: Butane

**Applicators:**

**PROliner:**

- Minimal assembly.
- Uses one 750ml can of PROline-paint.
- Easy and rapid line marking – up to 25 meters per minute.

- Quick adjustment between 50 and 75mm.
- Rear wheels easily removed to allow for marking close to walls, machinery, shelves etc.
- Colours can be changed without needing to clean the machine.

**ROADliner:**

Enjoys all of the benefits above but creates line widths between 100 and 130mm using two cans of PROline-paint.

**HANDliner:**

Specially designed for use in hand marking, use with stencils and to highlight objects, obstructions, steps etc. Use with a single can of PROline-paint.
